DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on April 11, 2006 has been entered. Claim 1 has been amended. No claim has been cancelled, or added. Claims 1 and 3-7 are still pending in this application, with claims 1 and 5 being independent.

Allowable Subject Matter

2. Claims 1 and 3-7 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Applicant teaches an apparatus having a first and second light fixture coupling brackets, first and second through-holes formed in the coupling brackets, first and second tightening handles, a light bar coupling device, and a light bar bracket including an attaching pin. The light bar coupling device is inserted into the first through-hole to enable the coupling brackets to be coupled to a light bar frame. The tightening handles are each coupled to a corresponding coupling bracket through the second through-hole. The light bar bracket further includes a bracket coupler to which the attaching pin is coupled, such bracket coupler being slidably coupled in a groove formed in the light bar bracket.

No prior art was found teaching individually, or suggesting in combination, all of the features of the applicants' invention, specifically the claimed structure of the light fixture coupling bracket structure in combination with the light bar bracket structure.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
